## ALLIANCE

### Resolving Energy Challenges with Innovative & Efficient Solutions

An initiative of:

Wagman Construction, Inc.  
Stock and Leader  
EnergyWise Consulting  
Barton Associates

### Why Energy Solutions Alliance?

With rate caps set to expire, the cost of electricity will rise dramatically making energy conservation not just an ethical issue but also a significant financial one.

That's why Wagman Construction partnered with Barton Associates, EnergyWise Consulting and the law offices of Stock and Leader to better serve our clients.

Energy Solutions Alliance combines the individual expertise and resources of each specialty firm into a collaborative package of services, providing the blueprint to help you save time, money and energy on your new construction and renovation projects.

## Customized Package of Services:

### WAGMAN CONSTRUCTION

Wagman Construction has for many years been a member of the United States Green Building Council (USGBC) and the Green Building Association of Central Pennsylvania (GBACP). Our LEED-Accredited Professionals have successfully demonstrated their knowledge of integrated design, understanding of green building practices and principles, and familiarity with LEED requirements, resources and processes. At Wagman, our focus on green is, first and foremost, about doing the right thing.

- ☀️ Infra-red imaging services
- ☀️ Cost estimates
- ☀️ Energy efficiency auditing services during design phase
- ☀️ Construction implementation of each selected energy efficiency project
- ☀️ Implementation/construction scheduling

### ENERGYWISE CONSULTING

At EnergyWise Consulting, our mission is simple: Reduce your costs so that you can operate your business with the least possible expenditure for energy costs. We will:

- ☀️ Analyze and build load profiles of current energy use
- ☀️ Develop energy procurement strategies (live reverse auctions, sealed bids, etc.) to improve pricing opportunities
- ☀️ Negotiate energy supply contracts with multiple vendors
- ☀️ Monitor invoicing for proper application of utility tariff and contracted pricing
- ☀️ Track ongoing energy use for potential opportunities to conserve use and costs

### STOCK AND LEADER

There is an ever-changing collection of laws and regulations concerning all aspects of our environment and our natural and energy resources. These laws and regulations directly affect and challenge businesses of all sizes, developers, governments and industries. Our broad range of experience and in-depth knowledge allows us to handle a wide spectrum of environmental matters for a diverse client base that includes business and industry, individuals, municipalities, not-for-profits and school districts. Our services include:

- ☀️ Assistance with identification of public and private funding opportunities, tax incentives, and public and/or private partners to facilitate energy efficiency and alternative energy projects
- ☀️ Project funding application preparation
- ☀️ Business and/or partnership structuring for alternative energy projects

### BARTON ASSOCIATES

With more than 40 years of experience evaluating and designing mechanical, electrical and plumbing systems throughout the Mid Atlantic region, every project Barton Associates delivers involves an analysis of energy. Whether we are designing a new system, specifying upgrades or conducting a survey of existing conditions to identify opportunities for improved efficiency, the most common thread in any project we deliver is energy. As the largest independent MEP consultant headquartered in Central PA, we offer a comprehensive list of energy services including:

- ☀️ Energy Auditing
- ☀️ Energy Modeling
- ☀️ Energy Conservation Analysis & Design
- ☀️ Sustainable Design
- ☀️ LEED Consulting
- ☀️ Alternative Systems Analysis & Design
- ☀️ Commissioning
- ☀️ Demand Side Systems Analysis & Design
