Wagman Celebrates Ribbon Cutting of MD 404 with Governor

(York, Pa) Wagman Heavy Civil representatives joined Maryland Governor Larry Hogan and Secretary of Transportation, Pete Rahn, for a ribbon cutting ceremony in celebration of MD 404 opening.

The MD 404 project is a \$105M design-build project, for the Maryland State Highway Administration and consisted of the design and construction of MD 404 from a two to four lane divided highway from US 50 to east of Holly Road. This high profile project had an unprecedented 18 month delivery schedule for a design-build project of this magnitude in the state of Maryland. The Construction Joint Venture included three civil contractors: Wagman Heavy Civil, Inc. serving as the managing partner, David A. Bramble, Inc. and Allan Myers, Inc.

In order to accelerate the delivery of this project, it was segmented into three parts, and each contractor was paired with a designer and responsible for a given physical segment. Project design partners included Wallace, Montgomery & Associates, Johnson, Mirmiran & Thompson, and RK&K with Century Engineering for Independent Design Quality Assurance.

Greg Andricos, President of Wagman Heavy Civil comments, "This project exemplifies the benefits of design-build to accelerate project delivery. I commend our joint venture team for their extraordinary efforts to coordinate schedules while remaining vigilant to safety."
