Wagman Heavy Civil, Inc. Project Awarded for Engineering Excellence

(Dinwiddie, Va.) Wagman Heavy Civil, Inc. and project partner Johnson, Mirmiran & Thompson, Inc. were thrilled to receive the 2019 Merit Award for the Odd Fellows Road Interchange project at the Engineering Excellence Awards Gala, hosted by the American Council of Engineering Companies of Virginia. The event, which was held on February 7 at the Jefferson Hotel in Richmond, recognizes outstanding engineering achievements in Virginia.

The Odd Fellows Road Interchange project, an approximately \$30 million design-build project for the Virginia Department of Transportation, included a new interchange along the US Route 29/460 corridor at Odd Fellows Road in Lynchburg, Virginia, consisting of a two-span bridge over existing US Route 29/460, two on-ramps, two traffic roundabouts, and the widening of an existing portion of Odd Fellows Road. Additional improvements included corridor-wide utility relocations, sidewalks, a shared use path, enhanced street lighting and landscaping.

Greg Andricos, president of Wagman Heavy Civil, comments, "It is always exciting when our collective efforts are recognized. Wagman and JMT are happy to deliver another award-winning Design-Build Project for VDOT and support the growing community of Lynchburg with this new Interchange."

The new interchange has reduced congestion on a major corridor, enhanced access to a vibrant industrial development area, and will help attract future business to the city, in support of Liberty University's master development plan.

Wagman is a multi-faceted construction firm with major operations in heavy civil, general construction, and geotechnical construction services. Founded in 1902, Wagman is a fourth generation, family-owned company with offices in Pennsylvania and Virginia. As a heavy civil contractor, Wagman is a nationally recognized leader within the industry. Wagman's core competencies include: design-build, infrastructure, marine construction, modified concrete, grooving and grinding, and geotechnical construction services.
