Wagman Heavy Civil Receives Partnering Award at MdQI

(York, PA) On February 2, 2023, the Maryland Quality Initiative (MdQI) hosted its Award Banquet during the 30th annual conference in Baltimore, MD. Wagman Heavy Civil, Inc. took home the Excellence in Partnering Award, Project over \$10M, for the MD 32 Dualization from Linden Church Road to I-70 project. The awards are open to engineers and contractors who successfully deliver public sector transportation projects in the state of Maryland.

The \$85M design-build project for the Maryland State Highway Administration, included converting six miles of a two-lane road into a four-lane divided highway, greatly reducing traffic congestion, and providing enhanced safety for motorists. Three existing bridge structures were replaced, as well as 4,500 SF of stream relocation of multiple tributaries to the Middle Patuxent River, including the relocation of the river itself.

The partnering team included the Maryland State Highway Administration, Gannett Fleming, and Whitman Requardt & Associates, with Wagman serving as the design-builder on the project.

Wagman is a multi-faceted construction firm with major operations in heavy civil, general construction, and geotechnical construction services. Founded in 1902, Wagman is a fourth generation, family-owned company with offices in Pennsylvania and Virginia and is headquartered in York, PA. As a heavy civil contractor, Wagman is a nationally recognized leader within the industry. Wagman's core competencies include: design-build, infrastructure, marine construction, modified concrete, grooving and grinding, and geotechnical construction services.
