### **Wagman Heavy Civil Receives Two Safety Awards from HCCA**

(York, PA) Wagman Heavy Civil, Inc. received two safety awards at the Heavy Construction Contractors Association (HCCA) Safety and Infrastructure Awards Dinner, held at the Chantilly National Golf and Country Club, on Wednesday, April 24, 2024. These awards recognize outstanding safety performance and excellence in construction. Wagman accepted a *2024 Safety Award*, in the Highway Construction/Bridge Construction/General Contractor category of 500,000 – 1,000,000 manhours, for work performed in the DC, Maryland & Virginia region.

Additionally, Teresa Flores Rodriguez, a group leader at Wagman Heavy Civil, received the *2024 Career Safety Award*. With selection decided by the HCCA Safety Committee, this award recognizes an individual who has made a significant impact on the safety of their workplace by demonstrating excellent safety practices, suggesting improvements and mentoring others. Teresa is an advocate for positive changes in her line of work and looks out not only for her crew, but the travelling public on her projects.

“Safety is a core value at Wagman and I am incredibly proud of our teams for receiving these awards,” states Greg Andricos, President and COO of Wagman Heavy Civil. “We are also extremely proud to see Teresa recognized for her dedication to safety. We received an email from a Prince William County Police officer, expressing his gratitude for her actions. She positioned a Wagman crash truck behind him during an active traffic stop, keeping the officer and the other motorist safe. Those actions do not go unnoticed and demonstrate a commitment to going above and beyond.”

Wagman is a multi-faceted construction firm with major operations in heavy civil, general construction, and geotechnical construction services. Founded in 1902, Wagman is a fourth generation, family-owned company with offices in Pennsylvania and Virginia and is headquartered in York, PA. As a heavy civil contractor, Wagman is a nationally recognized leader within the industry. Wagman’s core competencies include: design-build, infrastructure, marine construction, modified concrete, grooving and grinding, and geotechnical construction services.
