Wagman Heavy Civil Receives Two Safety Awards from HCCA

(York, PA) Wagman Heavy Civil, Inc. received two safety awards at the Heavy Construction Contractors Association (HCCA) Safety and Infrastructure Awards Dinner, held at the Chantilly National Golf and Country Club, on Wednesday, April 23, 2025. These awards recognize outstanding safety performance and excellence in construction. Wagman accepted a *2025 Safety Award*, in the Highway/Bridge Construction/General Contractor category of 500,000 – 1,000,000 manhours, for work performed in the DC, Maryland & Virginia region.

In addition, Wagman Heavy Civil superintendent Paul Bacon received a *2025 Safety Leadership Award*. This award, which was selected by the HCCA Safety Committee, recognizes an individual who has made an impact on the safety of their workplace by inspiring others, implementing safety in all work practices and mentoring others when possible. By leading by example, Paul excels at safety and models Wagman's core values with his actions. He is committed to keeping all Wagman jobsite crews, subcontractors, inspectors and the general public safe.

"Wagman is proud that our commitment to safety resulted in these awards," states Greg Andricos, President and COO of Wagman Heavy Civil. "We are excited to see Paul recognized for his commitment to safety and community, both of which are Wagman core values. In addition to his normal duties, he worked with local police to locate a crime ring in the vicinity of his projects, improving public safety."

Wagman is a multi-faceted construction firm with major operations in heavy civil, general construction, and geotechnical construction services. Founded in 1902, Wagman is a fourth generation, family-owned company with offices in Pennsylvania and Virginia and is headquartered in York, PA. As a heavy civil contractor, Wagman is a nationally recognized leader within the industry. Wagman's core competencies include: design-build, infrastructure, marine construction, modified concrete, grooving and grinding, and geotechnical construction services.
